The Universal Stone Difference

Universal Stone uses cutting edge technology to give our stone products a consistent thickness. This technology creates a uniform look in each and every application. Installers appreciate the simplicity of how this feature allows for a time efficient and aesthetically pleasing finished product.

Universal Stone’s natural stone veneers are a timeless and cost effective product that can easily be added to any interior/exterior wall, fireplace or accent feature. Universal Stone also offers corner pieces to coordinate with the veneer you choose to complete the job. These natural stone veneer options add tremendous value and beauty to any project.
